

Marbles**

Instructions:

1. Give each player a marble to shoot.
2. Place the remaining marbles in a horizontal line.
3. Tape the string on the floor about 8 to 10 feet from the marbles.
4. Have the first player kneel behind the string and flick his/her marble toward the marbles in the line.
5. If the player knocks a marble out of the line he/she keeps that marble and continues shooting. If the player misses, it becomes the next player's turn.
6. Once all of the marbles in the line have been hit, the player with the most marbles is crowned the winner.

**To make the game more difficult, tape the string in a circle around the marbles and have players try to knock the marbles outside of the circle.
